Pedorthic footwear has never looked so good. The new performance line from Aetrex includes a trail runner that has all the requirements of a hiking shoe (like a deeply channeled outsole) with the comfort a good pedorthic shoe provides. Look for two insole inserts, an anatomically designed toe box and an EVA midsole to relieve foot pressure. **MSRP: \$120 Phone: 800/526-2739 Website: aetrex.com**
