BEST FOOT FORWARD

The new dress, casual and athletic footwear from AETREX provides patented customization to help eliminate foot pain. The company offers a digital foot analysis system that instantly identifies an individual's foot size, arch type and pressure points (the three most important parts of a perfect fitting) by using over 5000 pressure sensors and infrared LEDs. Shoes in the Gramercy Men's Collection offer full grain leather uppers, soft breathable linings, quarter-inch removable depth to fit orthotics and high-tech, slip-resistant polyurethane outsoles. Available at aetrex.com.
