Aetrex Bungee Boots

All of a sudden having to pull on boots to go outside and shovel snow doesn't seem like such a daunting task, at least not the part where you have to change out of your warm slippers to do it. The [Aetrex Bungee Boots](#) (\$160) go on like a pair of cozy socks, since they're made out of material with 360 degrees of waterproof stretchiness. More bonuses: an eye-catching bright red color and look ma, no laces!

Full disclosure: Outblush received a free sample of this product.
