## Keep your feet warm and dry with Aetrex boots

### Author Rating:

5.0 Stars - I Loved It!

Fall is here and the weather will start getting cooler as we get closer to winter.

Keep your feet warm and dry with [Aetrex](#) boots.

Since 1946 Aetrex has been making the most comfortable shoes on the market.

Thanks to advances in orthotics technology, today they make the healthiest shoes too.

Aetrex has come a long way since they first developed arch supports. Today they offer fashion-forward styles that look great and feel great.

This winter season, Aetrex recommends two styles of boots for women: Berries Tall Boots and Chelsea Essence Riding Boots.

The [Berries Tall Boot](#) is quite possibly the perfect rain boot. It's Neoprene lining stretches for optimal comfort while keeping your feet dry and warm. The sealed seam construction keeps water out, and the four way stretch uppers provide a perfect fit. The outsoles are rubber and provide superior traction even in wet conditions. This mid-calf boot has pull-up tabs for easy wear and removal, and the flexible shaft can be worn at its full height or folded down for a reversible look.

When the weather gets cold, riding boots are a must. The [Chelsea](#) easily combines fashion and comfort while the sweater design in the back of the boot accommodates wider calves while giving it a unique look. The Chelsea integrates the [Aetrex "Healthy 3" elements](#). A half-way zipper allows for easy on/off wear, and the soft leather upper is waterproof. The side buckles are not just an adornment; they can be adjusted for a better fit. A one-inch leather stacked heel finishes out this stylish and functional boot.
