Aetrex Worldwide Honored as the NSRA 2013 Vendor of the Year

Aetrex Worldwide, a global leader in comfort and wellness footwear, has been named as the National Shoe Retailers Association (NSRA) 2013 Vendor of the Year, a top honor that recognizes companies that independent shoe retailers hold in high esteem for the integrity of their business practices, and for their long-term commitment to the independent retail channel. The award was presented during NSRA's annual leadership conference.

The NSRA selects winners from references and different recommendations received throughout the year. Recognized for the extraordinary relationships forged with their retailers and customers, Aetrex was honored as the 2013 recipient along with Clarks. Previous winners include New Balance and H.H. Brown.
